

"Copy" menu option

The **Copy** and **Paste** options work so closely together that you could consider them as being one single function in two stages. The idea is to use a text line as the model or "source" for specific characteristics and copy those characteristics to one or more other text lines within the same job.

Details

With your cursor in a specific text line, you can select the

Line Properties to Use	Values:
☐ Line Height	10.95
☐ Base Line	24.58
